"It is better to trust in the Lord than to put confidence in men" Psalm 118:8

Volume 14(2) Mar/Apr, 1997

## 1997 Creation Safaris Announced!

Family Science & Recreational Outings That Honor The Creator

See Back of This Page For Schedule - Call or Write CSA for 1997 Safari Detail Booklet

*Natural bridges, caves, sink holes, underground rivers and other features of Missouri's famous Karst Topography: Learn how these fascinating features formed in decades rather than millions of years.*

*Tuttle Creek Canyon, 1,000 feet wide and over 30 feet deep, formed in a tiny 1993 flood. Did Grand Canyon, which had earthquakes and a million times more water, really take millions of years?*

### Who participates in CSA Creation Safaris?

Kids from 8 weeks to 90 years who enjoy the outdoors, and are interested in true knowledge, especially regarding origins.

### How much do Creation Safaris cost?

CSA does not charge for safaris. However, motels, campgrounds and some of the places we visit do! **And we do request that you make reservations so we can properly plan.**

### How Do I Get More Details? How Do I Enroll?

To make reservations call (816) 658-3610, or write CSA, 22509 South State Line Road, Cleveland, MO 64734. To find out full details, request a copy of the brochure: "**1997 CSA Safari Detail Booklet**," which will give you costs, meeting place, date and time of departure and return, what to bring, safari registration information, etc.

### Important Note

The Scripture is plain... "*Let your yes be yes, and your no be no.*" CSA safaris are typically attended by 50 to over 100 people. People who reserve slots for Safaris and then simply do not show up, often deprive others of a chance to attend. Obviously "things come up" that prevent attendance. If this happens to you, **please notify us as soon as possible!**

**In 1996 over a thousand people joined us for a Creation Safari. Kids of all ages enjoy these outings, while growing "in grace and knowledge of the Lord Jesus Christ," the alpha and omega of creation.**

*Fossil Hunts: Fun and educational for all ages. Build your own evidences for Biblical Origins by developing your own fossil collection!*

**Natural History Museums:** See with your own eyes that "evidence" for evolution and millions of years, when correctly interpreted, is solid evidence for creation and a few thousand years.

# Noah's Ark and the Great Flood

A Book Review by Linda Wilkerson

A very fine children's summary of the Genesis Flood. The book does a nice job of explaining with Biblical quotes and commentary the world situation prior to the flood, the flood itself, and it's conclusion. A brief but helpful parent's summary helps you teach your children the relationship of the flood and the ark to the plan of salvation.

The book is a great means to witness to a lost child. It has several good points in it. I like the part that says "Christians should stand out as distinct from the world," one that has not been emphasized enough. Another part that I like is the emphasis that "God keeps His word." Something that needs to be stressed to children. In a world of uncertainties they need to know that there is a standard that is reliable and dependable. An idea the book brings out that I had not thought of was that, even on God's ark, things may seem scary when you look at what's going on outside the Ark. Even as an adult I had not looked at that aspect of the story before. The same is true today, when we are in the "arc" of Jesus.

Unlike most children's books on the Flood, this one is Scripturally and scientifically quite accurate. It is practically the only children's account that correctly identifies the cause of the flood to **not be rain**. It correctly visualizes the Ark as an enormous floating box, consistent in its appearance with the majority of claimed eye-witness accounts and with the description in Scripture. This contrasts considerably with the typical illustration of a wimpy little boat with a giraffe sticking it's head out the top.

32 pages, soft back, profusely illustrated in full color.  
Recommended. Available from CSA, \$7.00

## Audio/Video Tape of the Month:

### The Ice Age: How Does It Fit?

by: Larry Rink

Was the ice age two million years ago, or shortly after the flood? What caused it? How long did it last? What effects did it leave?

**Audio Tape: \$5.00 - Video: \$13.00 (Includes postage)**

## Book of the Month:

### Noah's Ark and the Great Flood

by: Gloria Clanin

See book review on this page.

Regular Price: \$7.00 plus postage.

**Special: Mar/Apr 1997 Price: \$7.00 (includes postage)**

## Other Great Outings:

### Grand Canyon Creation Tour

by the Institute for Creation Research

April 12 - 20, 1997

CONTACT:

Grand Canyon tour  
Institute for Creation Research  
PO Box 2667  
El Cajon, CA 92021  
(619) 448-0900

### Twin Peaks Family Science Adventure

June 29 - July 4, 1997

and

### Redcloud Family Mountain Adventure

Aug 10 - 15, Aug 17 - 22, 1997

CONTACT:

David or Mary Jo Nutting  
Alpha Omega Institute  
P.O. Box 4343  
Grand Junction, CO 81502  
(970) 523-9943

## Audio Tape Series Special:

### The Basic Institute in Creation Science

by: Ken Carlson, Bob Farwell, Cal Myers,  
Jim Henderson, Glenn Kailer, Larry Rink, Tom Willis

A complete series on Origins. Not for Sunday School, this series is for people who truly want to learn more about these issues.

**16 Audio Tapes**, in two attractive volumes, **almost 30 hours**.

Conduct your own home origins seminar, or simply study the issues while jogging or driving.

Individual tape price: \$60.00

**Complete Audio Tape Series: \$50.00**, (includes postage)

## Join and Support CSA

**CSA Monthly Meeting Location: Westbrooke Church 9898 West 95th, Overland Park, KS**

Two blocks East of 69 Highway (or Switzer) on North side of 95th

Refreshments: 6:15PM - Meeting: 7:00PM Nursery Available: \$2.50 per child (Reservations required for nursery)

**CSA Meeting Tuesday, Mar 4, 1997**

The Basic Institute in Creation Science

**The Origin of Kinds -  
The Myth of Biological Evolution**

by: Tom Willis

Tom will review the 10 most widely published *Proofs of Evolution* and contrast them with the evidence used to support the *proofs*. These *proofs* are the ones that appear in virtually every high school and college biology textbook, except the books that don't feel any proof is necessary, and the ones whose authors are so incompetent (or perhaps they recognize the poverty of the proofs) that not much proof is presented.

The Advanced Institute in Creation Science

**Do Birds of Prey Demonstrate  
Stability of Species?**

A Video from the International Conference on Creation  
by: G. Richard Culp, D.O.

While studying the Origin of Kinds these two meetings in the Basic Institute, the Advanced Institute will look at two specialized refutations of evolution in remarkably different fields. This month we'll examine the lack of field evidence for evolution in birds of prey. (T-21)

CSA meetings are free, educational,  
useful in evangelism, and even entertaining?  
If you haven't been coming, you should be.

Did you know that you can "attend" CSA Meetings remotely by ordering the Audio (\$5.00) or Video tapes (\$13.00), or by checking them out of the Lending Library. See the coupon on preceding page.

**CSA Meeting Tuesday, Apr 1, 1997**

The Basic Institute in Creation Science

**LIFE**

*How did it get here, Why is it here,  
Why are there so many kinds, Where is it going?*

by: Calvin Myers, Ph.D.

These are quintessential philosophical questions which scientists often inappropriately try to provide answers to. In doing so they exceed the boundaries of science. Cal will consider these questions in the light of molecular biology, medical research and the indisputable light of God's Word. He will also comment on the boundaries.

The Advanced Institute in Creation Science

**The Kidney: A Designed System  
for Plasma Homeostasis**

A Video from the International Conference on Creation  
by: Patricia L. Speck, DVM

Recently we reviewed the considerable evidence that the Appendix is certainly not a "vestige of our evolutionary past." Even more powerful evidence for creation comes from every cell and organ in living creatures. The kidney is a vivid example of a complex biochemical treatment plant for the blood, hardly a candidate for production by random processes.
